

# PulseInfo

**PulseInfo** an app for your smartphone that will take input through a fingerprint scanner and motion detector to calculate the instantaneous heartbeat and calories burnt of the user. It is for people who like to like to do cardio, CrossFit, and are marathon enthusiasts. Any fitness freak who wants to track their progress.

**PulseInfo: Track your way to fitness**

**PulseInfo** is a health and fitness app, which will be available on all smartphone platforms. The main function of this app will be to monitor your heartbeat during and at the end of the workout session. It will also track your calories and overall progress.
